STM32H72x/3x hands-on workshop

Agenda and introduction

November 2020

Adam BERLINGER
Christophe VRIGNAUD
Radek RIPA
Tilen MAJERLE

Team Introduction

Adam BERLINGER – ST Prague

TOMAS Application team member in Prague
Started in ST in 2014 as Trainee. Since 2016 works full-time as Application Support Engineer.

Christophe VRIGNAUD – ST Paris

TOMAS Application team member in Paris
He joined ST in 2004, working on various topics. He started with the STM32 and its ecosystem in 2017 when he joined the EMEA support team.

Team Introduction

Radek RIPA – ST Prague

TOMAS Application team member in Prague.
Since 2012 Support for STM32 & STM8

Tilen MAJERLE – ST Ljubljana

Tilen joined ST in 2017 as microcontroller FAE and later moved on to the STM32 Technical marketing team. He is currently responsible for customers in Eastern Europe and is involved in driving STM32 enhanced ecosystem solutions across EMEA region.

Purpose of this workshop

- Identify main challenges for high performance application and explain how to overcome each of them
- Introduce new STM32H72x/3x product and its complete STM32 ecosystem
- Practically experience performance impact versus different application architectures with code execution from internal or external memories
- Enable customers to seamlessly continue with product development of their own application

Agenda – morning block

08:30 – 12:00

- 1 Introduction, Agenda & Rules (15min)
- 2 Problematic of high-performance applications (30min)
- 3 STM32CubeMonitor hands-on (30min)

- 4 Break (15min)
- 5 Code execution from internal flash (60min + 15min)

Agenda – afternoon block

14:00 – 17:00

1 STM32 overview (30min)

2 Code execution from
external flash
(60min + 15 min)

3 Break (15min)

4 Realize proof of concept
(15min)

5 STM32Cube ecosystem
next steps (15min)

6 Wrap-up & Q&A (15min)

Remote flow and rules

Remote workshop **Rules**

- If not speaking **please make sure to be muted** (we'll mute all in beginning).
- **Use CHAT window** of the Teams meeting to ask questions or highlight a problem during all the chapters and hands-on exercises.
 - Please mention slide number in case the question is related to specific slide.
 - Questions will be answered by facilitators in written form inside the CHAT window directly in real time.
 - Specific questions will be read by the facilitator at the end of each chapter and answered in spoken way by all the facilitators.
- Don't hesitate to ask a question anytime.
- In case of more complex issues private CHAT session can be started.
- If needed to share screen or have dedicated audio exchange, we will enable it at hands-on session check points or during the breaks.

Thank you
