STM32H72x/3x hands-on workshop

Conclusion & wrap-up

Conclusion

- Overview of STM32 portfolio
- Understanding different customer challenges for high-performance application
- Introduction of STM32H72x/3x and its capability to address your next high-performance application
- Overview of different application architectures, code execution and performance differences among use cases
- Practical use of STM32 ecosystem tools in practice with STM32CubeIDE, STM32CubeMonitor and integrated STM32CubeMX tools
- You should be able to understand which architecture better fits to your next project in terms of internal or external memories

Next steps
